 - *VAR Econometrics*, at the doctoral program of Economics and Statistics (6 hours), University of Roma Tre (2001), doctoral program of Economics (18 hours), Sapienza University of Rome (1997, 1998)

- *International Trade Theory and Policy* (6 ECTS), at the M.A. Economics of International Trade and European Integration (<http://webhost.ua.ac.be/eitei/>) 2000-2005.

Awards

- *Rackham One-Term Dissertation Fellowship 1994*, University of Michigan
- *Research-Assistant Fellowship*, Summer 1990, University of Michigan
- *Scholarship “Luciano Jona” for graduate studies abroad*, 1988-2000, Istituto Bancario S. Paolo di Torino

Seminars held at: University of Michigan, University of Lille 1, Bank of Italy (SADIBA 1999), several Italian Universities.

Referee for the following major Journals: *European Economic Review*, *Regional Science*, *American Economic Journal – Applied Economics* (2018), *Oxford Economic Papers*, *Regional Science and Urban Economics*, *American Economic Review* (1998-2000), *Economic Notes*, *Journal of Banking and Finance*, *Journal of International and Comparative Economics*, *Moneta e Credito*, *Rivista di Politica Economica*.

Current research projects

- *Labeling remittances* (role: PI): a project aimed at designing a labelling system for money transfers to the origin household; project on overseas Filipino workers in Dubai (project financed by Global Innovation Fund, 2017-20; main PI: Dean Yang, University of Michigan)
- *The pro-trade effect of migration: the case of Argentina 1870-1913*: an application of the gravity model on international trade augmented with migration for the Argentine economy with a unique dataset for immigrants from many European countries; an attempt to obtain gains from migration due to increased product variety.
- *Skill composition of international migration flows and impact on the production structure*: a study project on the interaction between individual skills and international labor mobility, by stressing the impact on the production structure of the destination country via the effects on the supply of different tasks.
- *Localization of immigrants in Italy*: an empirical study aimed at uncovering the relative importance of network effects and local characteristics for the localization of migrants in Italy.

Selected Refereed Publications

Journal articles:

1. “Multi-Country Tasks Measures: Beyond US-based Data and a Focus on Migration” (with Rama Dasi Mariani), *Economics Bulletin*, Vol. 39 No. 3 p.A202 (<http://www.accessecon.com/Pubs/EB/2019/Volume39/EB-19-V39-I3-P202.pdf>)
